

Polygraphica

Polygraphica's label press division specialises in supplying pre owned equipment from simple single colour machines to the latest specification multi colour presses from all the worlds recognised manufacturers. With around 200 presses and ancillaries available at any one time and all on Polygraphica's website it is easy to source and plan your next production press.

With the ability to fully refurbish any machine to as new condition and guarantee quality, Polygraphica can deliver the desired machine and re install and commission it anywhere in the world

FLEXO

2 COLOURS

5" Tackyboy 2 die stations, slitting, selection of dies, label counter, 16 print cylinders. Ref V49644

3 COLOURS

Mark Andy 830 3 die stations, slitting, 2 rewind stations, stacker, only 700 hours, age 1994. Ref V50795

4 COLOURS

Arsoma EM280 280mm web width, web guide, splice table, tension control infeed, hot air dyers only, 2 rotary die stations, slitting, trim extraction, station for perforating or sheeting, video web inspection, age 1996. Ref V50273

Comco Cadet 10" web width, turn bar, laminating, auto throw off, doctor blades, 3 rotary die stations, 2 product rewinds, 2 waste rewinds, splice table, web guide, crush slitting, IR drying, auto tension control, large selection of print cylinders, age 1999. Ref V50360

Edale Alpha IR drying, 3 rotary die stations, sprocket punching, 4 mag cylinders, web guide, age 2001. Ref V50093

Edale E250 DG 250mm web width, hotair dryers, 3 rotary die stations, twin rewind, dual geared 1/8th AND 3/2DP, turnbar, age 1992. Ref V50406

Focus F250 250mm web, 2 rotary die stations, doctor blades, 2 product rewinds, 1 waste rewind, ceramic anilox rollers, crush cut slitting, hot air drying, age 1987. Ref V48935

7" KDO only 2 usable print stations, 3 die stations, 5" cutter adapter, 3 slitting knives, 4 ink trays, stacker unit, spare motor. Ref V50780

Mark Andy 830 IR dryers, large diameter unwind, dual rewind, 2 die stations, web guide, age 1998. Ref V50776

Propheteer 1000 260mm web width, 255mm print width, repeat 8"-15", 1/8th gear pitch, 1m unwind dia., web guide + tension, hotair drying, 3 rotary die stations, sheeter, rewind, age 1991. Ref V50226

6 COLOURS

Arpeco Impressionist 420mm web, 400mm print width, constant turning anilox rolls, doctor blades, 1 product & 1 waste rewind, splicing table, web guide, corona treater, UV dryer, delam/relam, turn bar, laminating, 4 rotary die stations, age 1998. Ref V48564

Aquaflex DBSP 1006 web 260mm, 2 web guides, tension control, hot air dryers, 3 die stations, 6 doctor blades, laminating, cold foil, UV dryer, sheeting, age 1989. Ref V50704

Comco Pro Glide MSP 18" web, die cutting cassette, 500 FPM. Ref V50919

6 COLOURS

Edale 250S 6 + 1 print, UV dryer, delam/relam unit, video web inspection, 4 die stations, 8 chamber blades, age 1998. Ref V50641

Edale 250S DG 10" web, 4 die stations, doctor blades, pumps, IR + hot air dryers, slitting, turnbar, web guide, dual gearing, age 1996. Ref V50868

KDO Seeltec 10.5" web width, splice table, Accuweb web guide, 1 GEW UV dryer, 5 IR dryers, tension control for film printing, age 1992. Ref V49755

Nilpeter F2400 Web cleaner, corona treater, 3 rotary die stations, flat bed die station, UV flexo station, laminating, video inspection, auto register, large selection of tooling, age 1993. Ref V50222

Propheteer 1000 260mm web width, 255mm print width, repeat 8"-15", 1/8th gear pitch, 1m unwind dia., web guide, tension control, hot air dryers, register control, 3 rotary die, sheeter, rewind, CTC 5 spindle turret rewinder, age 1991. Ref V50225

UV FLEXO

6 COLOURS

Allied Gear 16" web width, 1000mm dia. unwind, 6 UV & 6 hot air dryers, servo driven print rollers, 3 rotary die stations, 800mm dia. rewind, sheeting, plate mounter, age 1995. Ref V50249

8 COLOURS

MPS press 16" web, web guide, prepared for 8 screen units but without screens, laminating rotary die station, age 2000. Ref V50921

Nilpeter F3000 Standard unwind with web guide & corona treater, electronic infeed, 3 rotary die stations, electronic register control, flatbed die station, slitting, rewind, sheeter, age 1995. Ref V50427

Nilpeter F3000 305mm web width, 300mm print width, UV & hot air drying, de-lam / relam, turn bar, auto registration, 3 rotary die stations, 1 flatbed die, video web inspection, age 1996. Ref V50044

9 COLOURS

Comco Pro Glide 22" web, UVT UV lamps, web cleaner, cold foil unit, soft tension control, infeed tension control, dual gearing, chiller, 3 die stations, exit pacing, 2 die courts, slitting, laminating, turnbar, sheeter, register control, age 1998. Ref V50920

LETTERPRESS

4 COLOURS

Gallus Q33 7" web, 2 x 160 heads, 2 x 180 heads, segment die cutter, Gallus rewinder, drying tunnel, UV dryer, age 1970. Ref V49020

4 COLOURS

Sanjo SP4L Standard unwind, 4 rotary letterpress print units, 1 flexo unit, UV drying, flatbed die cutting, waste rewind, sheeting station, conveyor, single rewind, age 1980. Ref V49579

Shiki PC45 Chase area 270x450mm, 2-4 colour print, die cutting area 270 x 300mm, 270mm web width, no lamination or re-register, F&S rewind, age 1986. Ref V50311

5 COLOURS

Gallus R250 B01 Auto core loader, auto core gluing, numbering station, 5 spindle turret rewind, web guides in & out, web tension control, no die stations, age 1987. Ref V50097

Gallus T180B 4 semi rotary print heads, 1 flat bed print head, flatbed die cutting, air drying, age 1980. Ref V49565

Kopack 250 3 stations with UV, flatbed diecutter, 1 rotary diecutter, age 1980. Ref V50066

Lintec LH3000 300mm web width, semi rotary letterpress, 5 UV dryers, servo motor infeed & delivery, unwind, numbering with UV dryer, flatbed diecutter, laminator, rewinder, age 1993. Ref V50420

Nilpeter B200 205mm web width, full UV, UV flexo varnish, flat & rotary die cutting, hotfoil stamping, delam/relam, corona treater, sheeter, age 1985. Ref V50264

7 COLOURS

Gallus R250 255mm print width, 1 flat bed & 1 rotary die, 1 product rewind, 1 waste rewind, E & L web guide, corona treater, video web inspection, crush cut slitting, delam / relam, Sensotec register control, hot foil, age 1983. Ref V49470

Nilpeter B3000, 1 flexo unit, air cooled UV, flatbed die cutting, 2 rotary die stations, BST Promark video web inspection, age 1998, Ref V50935

8 COLOURS

Gallus R250 B01 flexo varnish unit, flatbed die station, rotary die station, turret rewind, Bobst auto register system, delam/relam, age 1987. Ref V50732

9 COLOURS

Nilpeter B280 and B200 package 5 col B200 press aged 1983 with varnish station, corona, 3 die stations, flat bed die + 1993 B280 press with 6 letter press, 3 screen and 1 flexo print stations, corona, hotfoil, 3 die stations, flatbed die, register control. Ref V50793

Kopack 250 260mm web width, 1000mm CI drum, auto registration, 2 web guides, 1 flatbed & 1 rotary die stations, laminating, web cleaner, delam/relam, corona treater, sheeting, rotary hot foiling, large selection of tooling, age 1987. Ref V49763

COMBINATION

7 COLOURS

Gallus R250B 10" web, 2 rotary screen-4 letterpress-1 flexo print units, hot foil stamping, waste and product rewinds, 7 UVT UV dryers, units, Bosch auto register, chill rollers, corona treater, inspection table, web cleaner, rebuilt 1995/1999, age 1989. Ref V49180

9 COLOURS

Nilpeter B3000 6 letterpress units with cooling plates for film printing, 2 rotary screen units, 1 flexo unit, 3 rotary die stations, hotfoil station, standard unwind & rewind, corona treater, web cleaner, full UV dry, turnbar, laminating, Rotocontrol, age 1995. Ref V50261

Kopack 400 coupon label press, 2 unwinds, 2 webs, 5 web guides, corona treater, web cleaner, electronic in feed, 7 letterpress units, 4 stork screen units, 1 flexo varnish station, 13 UV dryers, 2 die station, slitting, age 1977. Ref V50922

Nilpeter B3000, 1 flexo unit, air cooled UV, flatbed die cutting, 2 rotary die stations, BST Promark video web inspection, age 1998, Ref V50935

OFFSET

Nilpeter MO 3300 340mm web, 2 u/w's for coupons, turret rewind, corona, web cleaner, 18 offset, 3 flexo and 3 screen cassettes, chill drums, roto control 3300, video, turnbar, delam/relam, computerised ink ducts, age 1999. Ref V30782

Nilpeter MO 3300 5 colour basic press with roto control, 4 MO 3300 platforms, 3 flexo units, 3 screen units, web cleaner, corona, splice ink agitators, 3 moveable UV curing units, embossing, video, perforation, turnbar, age 1997. Ref V50865

SCREEN 2 COLOURS

Franchini Speri Sericonvert 330 model, 340mm web width, max pull 320mm, max print width 330mm, max print length 250mm, flat bed screen print, UV dryers, semi rotary die cutting, electronic feed, photocell for loop feed, waste rewind, slitting, 2 product rewinds, age 1997. Ref V50092

SMAG 11" web width, UV dryers, lamination unit, flatbed cutter, age 1990. Ref V50490

3 COLOURS

Nilpeter S330/S Unwind unit, automatic register control, 1 flatbed die unit, waste rewind, slitting, semi automatic turret rewind with 76mm & 45mm shafts, hot and IR drying, age 1975. Ref V48168

4 COLOURS

Gallus T330S 330mm web, 4 hot air dryers, flat bed die, splice, slitting, counter, tension control, mag plates, age 1983. Ref V50703

Gallus T330S 350mm web, 330mm print width, 4 UV dryers, 1 flat bed die, sprocket hole punching, splicing table, crush cut slitting, age 1981. Ref V48979

HOT FOIL PRESSES

Newfoil 5000 MK2 2 print heads with 220 x 150mm print area, die cutting unit, re-register facility, 228mm web width, laminating, age 1988. Ref V50258

Newfoil 5000 MK2 2 print heads with 220 x 150mm print area, die cutting unit, re-register facility, 228mm web width, laminating, Steppa motor, age 1989. Ref V50224

DIE CUTTERS

Daco DTD250, 10" web, 1 rotary die station, 25mm, 38mm 44mm & 50mm air shaft for the rewind, 5 razor slitting knives, age 2003, Ref V50942

Rotary logic C250-2D 250mm web, 2 die stations, linear register, end of roll detection, splice, 2 rewinds counter, guarding, age 2002. Ref V50932

Rotary logic C250-1D 330mm web, single die station, end of roll, splice, slitting, 2 rewinds, guarding, age 2002. Ref V50933

INSPECTION REWINDERS

Ident 280mm web width, 3" unwind shaft, scissor slitting (5 sets of knives), dual rewind with 3" & 1 3/4" rewind shafts, length & label count, age 1990. Ref V50211

Arpeco Tracker 16" web width, web guide, anti static, clear on clear label counter, 12 lane missing detection. Ref V50614

Arpeco Tracker 13" web width, 115 counter, age 1988. Ref V50256

Rotoflex SW 2000 20" web width, web guide, 5 slitting knives, length & label count, age 1989. Ref V49908

LABEL SHEETERS

Gallus BS330 330mm web width, heavy duty unwind, sheet to mark or sheet to length, batching conveyor, age 1980. Ref V48737

Rospach CF180 Fully automatic woven label cutting & folding machine, photocell guide for pre printed work, cut to exact length, double or single end fold or centre folded, max label size 2" wide x 3.5" long, 140-180 labels/min. Ref V50036

FABRIC PRINTERS

Windsor CL180 180mm web width, 4+1 print, 100m / minute speed, 2 rewinds, age 1997. Ref V50227

MISCELLANEOUS

Bielloni T2 core cutter 2007, tungsten carbide plates, dust extraction. Ref V49548

MISCELLANEOUS

Edale perf/sheeting tooling Ref V49267

Comco Mag Die Cylinders Gerhardt 10", 84T, 87T, 92T, 93T, 108T, 111T, 130T. Ref V49424

Caroflex light box 2 shelves, daylight tubes, opal perspex, tempered glass, single phase, 240v x 6 amp, age 2007. Ref V50431

Caroflex spray booth adjustable back support for the plates, age 2007. Ref V50432

Caroftex lifting gantry 250 kg hoist, age 2007. Ref V50433

9 x 18" VTI UV stations between 2-5 years old. Ref V50652

2 Nilpeter B280 screen units complete including control panel and UV systems. Ref V50866

Nilpeter MO 330 screen unit complete with trolley, 6 month use only, aged 2005, varnish pump, 2 cowlings shafts, sensors, 2 UV lamps. Ref V50930

Polygraphica proudly announce the eco-friendly, efficient cleaning system from Caroflex

Savings for your Company

Caroflex Limited felt that most of the machines and cleaning methods currently on the market were like pouring your money down the drain.

Paying for valuable employee time to clean print trays, doctor blades etc, using costly hot water and chemicals, paying tax for waste solution removal together with the negative effects on the environment were all areas Caroflex knew they could save your printing company money.

The fully automatic operation couldn't be more simple

- 1 Open the machine cover
- 2 Load dirty ink trays on the carousel and ancillary parts on the cleaning shelf
- 3 Close the machine cover
- 4 Press the cycle start button
- 5 Very quick 5-10 minute wash cycle begins automatically
- 6 On completion of cycle open machine cover
- 7 Remove trays, doctor blades and ancillary parts and wipe dry
- 8 Machine is ready for its next load

How the cleaning system works

Cleaning solution is pumped into the machine quickly and efficiently with its own in-built pump valve. Once automatically filled the Caroflex swift can be loaded ready for the cleaning cycle. When activated the cleaning solution is jetted directly onto the trays and ancillary parts via a series of spray nozzles and collected into its own filtered reservoir, where it is recycled back into the machine. This solution can be used effectively over and over again until such point as necessitates a change of the solution. (Heavy usage, usually after a 6-8 week period).
